Letter from our Outbound Exchange Student: Grace Baker

Hi All

Just giving you and the rotary club an update on my time so far in Sweden. I have been here for almost a month already and time is flying by. We arrived on the morning of Sunday the 19th of January and I got to meet my family and see house before they took me on a walk around the neighbourhood then to a little ice rink where we went skating. I started school the next jet lagged and tired but super excited. I now attend YBC, Young Business Creatives, in the IB program. I am not alone though i have Elle, a girl that is also on rotary exchange here in Nacka from Sydney.

I don't really remember my first couple days here in Sweden, time just flew by and I was still exhausted. On the first Saturday I went to Louise's house and got to meet her family. Many other students also came and Patrick, the exchange student that is staying at Louise's, Fredrick and Charlotte Made us lots of amazing Australian food.

In the second week I attended my first rotary meeting. It was a lot different to our rotary meetings back home. We had it for lunch, had a buffet and sat at separate tables. I didn't really know what the presentation was about but I tried had to absorb a bit of the information. The rest of the second week was spent mostly exploring the amazing city of Stockholm, meeting lots of oldie exchange students from Canada, America, India and heaps of other places. We also spend lot of time having fika in Gamla Stan, which is the oldest and most beautiful part of Stockholm in my opinion.

I have also been taken to many sight seeing spots and museums, but I am yet to go to the ABBA museum, which I have to do I have to go to the ABBA museum.

My third week here in the amazing land of Sweden was spent in the little town of Bollnas at language camp. I meet some many exchange students from all over Sweden, although many of them were Australia but I did meet some people from New Zealand, one from America and one from Argentina. We did learn a little bit of Swedish and a bit about the Swedish culture, history and government.

The locals took us ice fishing, to the local school, a music concert and we went sledding on the last night and we all had great fun and got really wet and cold but a Swedish women made us traditional Swedish pizza which was pretty much just bacon in batter. It was delicious.

The 3 hour bus ride home was spent mostly catching up on sleep and looking forward to getting home to our homes in Stockholm. The next day was Saturday and my family took me to their farm. It was beautiful to see a Sweden that wasn't a city. Their farm house is about 500 years old and it was amazingly beautiful.

I guess that is everything that has been happening over here in Sweden. Having an amazing time.

Thank you all for this amazing opportunity!

Grace
